

720 Hour Stations – 2 GHz Relocation Overview

- 720-hour users will have 90 calendar days to notify Sprint Nextel of its intention to relocate, establish eligibility, and submit their inventory. Based on the August 1st launch date, the cutoff for submission of 720 user inventories is October 30, 2007.
- 720-hour stations must notify Sprint Nextel of their intention to qualify for the 2GHz Relocation Program by October 30, 2007 via the following email address; 2G720StationNotification@sprint.com
- To be eligible for relocation and reimbursement, 720-hour rule stations must establish through receipts, tax records, or other documents that its eligible equipment was purchased before November 22, 2004.
- Upon review, a Sprint Nextel regional team member will contact the 720-hour station to confirm qualification status and discuss next steps.
- Please see the graphic below for additional milestones and progress deadlines.

*To be eligible for relocation and reimbursement a 720 hour station must establish through receipts, tax records or other documents that its equipment was purchased before November 22, 2004. Nextel will not relocate any 720 hour stations that fail to notify Nextel of its intention to relocate and establish eligibility within 90 days after Nextel announces its intention to relocate 720 hour stations.

If at any time the incumbent fails to use commercially reasonable efforts to meet the milestones that are the responsibility of the incumbent, then Nextel has the right to cease reimbursement of such applicable items or equipment or to select the comparable equipment to be provided and the supplier of such equipment.
